National Supercomputing Mission (NSM) – Nodal Center

Activity Report

1. Introduction

The National Supercomputing Mission (NSM) is a flagship initiative of the Government of India aimed at enhancing the nation's supercomputing capabilities and fostering research, innovation, and skill development in high-performance computing (HPC). Department of Computer Science and Engineering and Department of Information Technology in collaboration with CDAC, Pune are jointly designated as an NSM Nodal Center with the objective of providing access to advanced computational infrastructure, capacity building, and research support to students, faculty members, and researchers.

This activity report presents a summary of the initiatives, programs, and outcomes achieved by the NSM Nodal Center at WCE during the period 5th Nov, 2024 to 28th Feb, 2026.

2. Objectives of the NSM Nodal Center

The key objectives of the NSM Nodal Center at WCE are:

- To promote awareness and adoption of High-Performance Computing (HPC) and supercomputing technologies.
- To provide hands-on training and skill development in parallel programming, AI, data analytics, and simulation tools.
- To support research and innovation through access to supercomputing resources.
- To enable collaboration among academia, research organizations, and industry.
- To align institutional research and education with national priorities under the NSM.

3. Faculties involved in the initiative from WCE

1. Prof. Dinesh B. Kulkarni, Head (IT Department)
2. Dr. Medha A. Shah, Coordinator (CSE Department)
3. Dr. Umesh B. Chavan, Coordinator (IT Department)
4. Ms. Aprupa S. Pawar, Coordinator (CSE Department)
5. Mr. Shailesh S. Patil, Faculty (CSE Department)
6. Ms. Aditi A. Pawde, Faculty (CSE Department)

4. Infrastructure and Facilities

The NSM Nodal Center at WCE is equipped with:

- Access to national supercomputing facilities under NSM.
- High-speed network connectivity for remote access to HPC resources.
- Param Vidhya Supercomputing facilities (Specifications Attached)

5. Activities Conducted

Following Faculty Development Programs are conducted under this initiative.

- Total number of faculties trained: 867
- Total no. of FDP Weeks: 13
- Total no. of FOP Days: 8
- Total No. of STP Days: 20

6. NSM Activities with Expenses:

Total expenses including ongoing activities is 44 L

Activity Amount: The fixed deposit taken from host institute

* the expenses are budgetary figures.

7.

Participation and Beneficiaries

- Undergraduate students from engineering and science disciplines.
- Postgraduate students and research scholars.
- Faculty members from various departments.
- Researchers and external participants from collaborating institutions.

8. Outcomes and Impact

- Enhanced awareness of supercomputing and HPC among students and faculty.
- Improved competency in using computational tools for research and problem-solving.
- Increased participation in research activities aligned with national missions.
- Strengthened research culture and interdisciplinary collaboration within the institution.

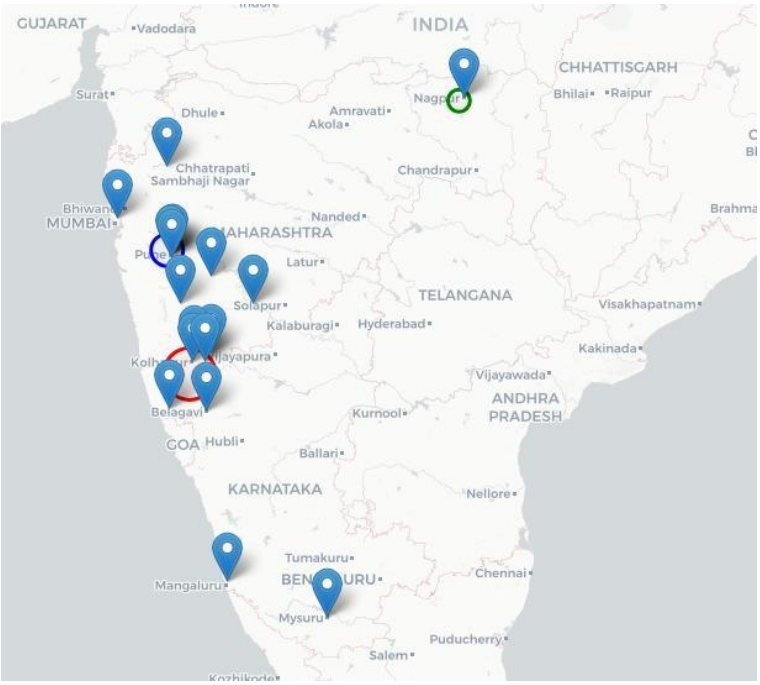
9. Websites:

- Walchand College Nodal Centre Website: https://nsmnc.wce.ac.in/
- National Supercomputing Mission Website: https://nsmindia.in/

10. Future Plans

- Organizing advanced-level training programs on parallel algorithms, GPU computing, and AI at scale.
- Increasing student and faculty participation in national-level NSM initiatives.
- Strengthening industry and research collaborations.
- Encouraging publications and funded research projects utilizing supercomputing resources.

11. Regions covered under NSM:



11. Conclusion

The NSM Nodal Center at WCE has played a significant role in promoting supercomputing awareness, skill development, and research engagement within the institution. The activities conducted have laid a strong foundation for sustained growth in high-performance computing education and research. The center remains committed to contributing effectively to the objectives of the National Supercomputing Mission in the coming years.

Prof. Dinesh B. Kulkarni
Head,
NSM Nodal Center
Walchand College of Engineering, Sangli
